COMMISSIONERS

Mr. Mel Humphreys
2164 South 4th East
Salt Lake City, Utah 84115

Dear Mr. Humphreys:

The Board of County Commissioners, at its meeting held this day, discussed the matter concerning the maintenance of the roadway below the gate in Lambs Canyon, and agreed that the residents and taxpayers in that area are entitled to certain services.

In an effort to resolve this matter, representatives of Salt Lake County met with the Forest Service people and indicated to them that the County would be willing to participate in this matter on a 50-50 basis as this road is on Forest Service ground, and Salt Lake County is unable to perform any maintenance without contractual agreement with the Forest Service.

It was the decision of the Board of County Commissioners, upon the recommendation of the County Attorney, that it would be improper for the County to assume full maintenance of this road, inasmuch as it is not a County right-of-way, nor private property, but that it is property of the Federal Government.

When the Forest Service sees their way clear, Salt Lake County would be willing to consider, once again, the 50-50 participation in this matter.

Very truly yours,

BOARD OF COUNTY COMMISSIONERS

W. STERLING EVANS, COUNTY CLERK

By Nestha M. Fucaker
Deputy Clerk
